7th Annual Oregon Chapter of the American College of Cardiology Oregon Cardiovascular Symposium

Oregon
 CHAPTER

Jointly sponsored/
 Co-provided by the
 American College
 of Cardiology
 Foundation

Overall Need Statement

Physicians and cardiac care associates are required to maintain up-to-date knowledge of the latest developments in the practice of cardiology to improve patient outcomes. The Oregon Chapter of the American College of Cardiology Annual Symposium features education that provides needs-based learning covering a thorough overview of atrial fibrillation, sleep apnea, heart failure, cardiovascular disease prevention with lifestyle issues including prevention and rehabilitation, health care reform, acute ST-and non-ST elevation treatment process evaluation, and heart disease in women.

Overall Goal Statement

The overall goal of this program is to enhance participants' competence by providing the most up-to-date developments in the diagnosis, treatment and management of cardiovascular disease and by facilitating transfer of knowledge into practice to improve patient outcomes.

Learning Objectives

Upon completion of this program, attendees should be able to:

1. Discuss the indications for anticoagulation in atrial fibrillation and be familiar with newer treatments for this problem.
2. Explore advances in the treatment of heart failure including the ACC/AHA 2005 Guideline Update for the Diagnosis and Management of Chronic Heart Failure in the Adult and articulate appropriate treatment goals, utilizing both medical and surgical treatments.
3. Review the signs and symptoms of obstructive sleep apnea and the reasons why this disease can contribute to cardiovascular morbidity and mortality.
4. Describe the ACC position on health care reform and the reasons why such reforms are essential.
5. Review sexual function in the patient with heart disease and stratify an individual's risk.
6. Review current practices in the provider's hospital and apply D2B best practices.
7. Review the ACCF/AHA 2009 Performance Measures for Primary Prevention of Cardiovascular Disease in Adults including unique features related to cardiovascular disease prevention in women.

Target Audience

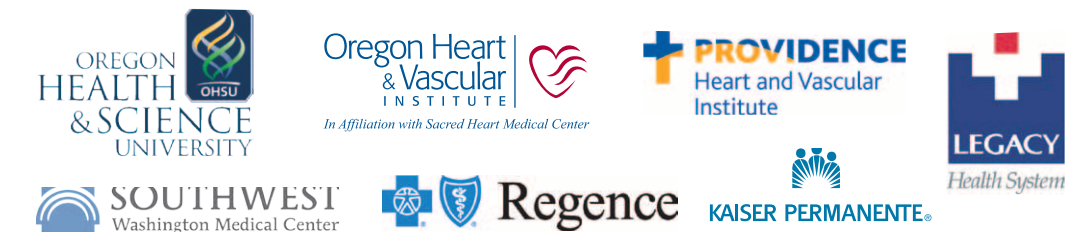

The target audience for the Oregon Cardiovascular Symposium is Cardiovascular Physicians, including Adult, Pediatric and Surgeons, Internists, Family Physicians, Nurses, Nurse Practitioners, Clinical Nurse Specialists, Physician Assistants, Pharmacists and CV Technologists.
