This program is designed for the practicing surgeon involved in the care of patients with diverse surgical problems. It is meant to provide an update of current surgical practice and to enhance the knowledge of the participants in these areas.

The American College of Surgeons is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to sponsor continuing medical education for physicians. The American College of Surgeons designates this continuing medical education activity as meeting the criteria for 12.5 credit hours in Category I of the Physicians Recognition Award of the American Medical Association.

## HENRY N. HARKINS: BIOGRAPHICAL NOTE

Born in Montana in 1905, Henry Harkins spent most of his youth in Chicago, where he earned his medical degree from Rush Medical College in 1930. He subsequently received his surgical training at the University of Chicago, serving as Chief Resident in 1936. Following residency, Dr. Harkins began an active career in academic surgery, including fellowships in several European centers. Upon his return to the United States, he served on the staff of Henry Ford Hospital, and later at Johns Hopkins.

In 1947, Dr. Harkins became Chairman of the Department of Surgery at the University of Washington. Under his leadership, the Department gained a reputation for excellence that endures to this day.

Among Dr. Harkins' many contributions to surgery were work on traumatic shock, burns, hernia, varicose veins and a keen interest in gastric pathophysiology and surgery. Until his death in 1967, he remained active on numerous editorial boards and advisory panels. The Harkins Resident Paper Competition is a fitting tribute to the memory of this extraordinary surgical leader.
